Bibliography

With the scope of realization of the activity on the Strategy of maintaining the development of the small and middle enterprises in the period of 2006-2008 and in order to accord the informational assistance to the economical unities, AGEPI propose a series of informative material selected from the books and the periodical editions in the field of intellectual property (IP) which are available in the collection of the AGEPI's library. These documents may be also used at the preparation and carrying out the courses and seminars for the managers, conferences and scientific symposiums, round tables etc.

The bibliographical documentations on the IP role in the development of small business may be realized in the DB WIPO on the address www.wipo.int/sme/en [1].
