N.B.: How to recognize original products?

- *Price*: should be the first warning sign. No tax or duty free products. A lower price is automatically suspicious and should raise suspicion of potential customers.
- *Packaging*: it must be intact.
- *Conditions of sale*: original products are not sold outside distribution networks. Store "face" says a lot about the real origin of the products sold.
- *Custom labels*: original products, especially for clothing, are sold only with custom labels.
